Part 3: Objection Handling - Ready-Made Responses

Common Objections and Proven Responses

Objection 1: "That's Too Expensive. I Can Use Canva for Free."

Why They Say This: Clients don't understand the difference between DIY tools and professional design.

YOUR RESPONSE:

"I understand the concern about cost. Here's the difference: Canva gives you templates, but OPTILINE gives you a custom, strategic brand built specifically for your business. A $799 brand is a one-time investment that you'll use for years. Compare that to a traditional agency that charges $3,000-$5,000 for the same work, or $500/month in retainer fees. Plus, with OPTILINE, you own everything—no ongoing subscriptions. Think of it as buying a professional suit vs. renting one. You wear it forever."

Follow-up: "Can I show you a case study of a business like yours that invested in professional branding and saw a 30% increase in customer inquiries?"

Objection 2: "The MATRIX Pack is Too Expensive. Why Do I Need Ads?"

Why They Say This: They see ads as optional or don't understand ROI.

YOUR RESPONSE:

"Great question. Here's the reality: You can have the most beautiful brand in the world, but if nobody sees it, it doesn't matter. The MATRIX Pack includes Ad Launchpad—which means we don't just build your brand, we put it in front of your ideal customers with high-converting ads. For e-commerce, this typically generates 3-5x ROI on the investment. So that $1,799 investment often pays for itself in the first month through increased sales."

Objection 3: "I'm Not Sure About the 14-21 Day Timeline. I Need This Faster."

YOUR RESPONSE:

"I hear you on urgency. Here's the thing: The 14-21 day timeline includes strategy, custom design, revisions, and perfection. If we rushed it, you'd get a mediocre brand that doesn't serve your business. That said, CORE Pack can be delivered in 7-10 days because it's more focused. Quality takes time, but it's worth the wait."

Objection 4: "I'm Not Sure If This Is Worth It. Can You Guarantee Results?"

YOUR RESPONSE:

"I can't guarantee specific sales numbers because that depends on many factors—your market, your product, your pricing. What I can guarantee is this: You'll have a professional, strategic brand that positions you as a credible authority in your space. That's proven to increase customer trust and willingness to buy."

Objection 5: "I Already Have a Logo. Why Do I Need a Full Brand Kit?"

YOUR RESPONSE:

"A logo is just one piece. A complete Brand Kit is the entire system: logo, colors, fonts, tone of voice, and guidelines. Think of it like this: A logo is the face, but the Brand Kit is the entire personality. Without the full system, your brand looks inconsistent across platforms."

Objection Handling Cheat Sheet

Objection	Key Response	Next Step
"Too expensive"	Compare to traditional agencies + ROI	Show case studies
"MATRIX is too much"	Explain customer acquisition cost	Discuss ROI
"Timeline too long"	Quality takes time	Work backward from deadline
"No guarantee"	Guarantee professionalism, not sales	Define success together
"Already have logo"	Logo ≠ complete brand	Offer brand audit
"Worried about ownership"	100% ownership, forever	Send contract
"Quality concerns"	Portfolio + revisions + testimonials	Connect with clients
"Need to think about it"	Schedule strategy call	Send resources

Part 4: Closing Strategies

The Discovery Call Framework

Before pitching, always understand the client's situation:

1. **Current State:** "Tell me about your current branding. What's working? What's not?"
2. **Goals:** "What do you want to achieve in the next 3-6 months?"
3. **Challenges:** "What's been holding you back from reaching those goals?"
4. **Budget:** "What budget range are you working with?"
5. **Timeline:** "When do you need this completed?"

The Recommendation

Based on their answers, recommend the right package:

- Limited budget + brand only? → **CORE PACK**
- Growing business + needs content? → **NEXUS PACK**
- Ready to scale + needs full solution? → **MATRIX PACK**

The Close

> "Based on what you've told me, I think the [PACKAGE] is perfect for you because [specific reason]. It includes [key benefits], and it'll be completed by [date]. The investment is [price], and you'll own everything forever. Does that sound like what you're looking for?"

Part 5: Marketing Materials and Talking Points

Key Talking Points to Use

> **On Speed**
>
> "OPTILINE delivers professional brand assets in 7-21 days. Traditional agencies take 6-12 weeks. That's the difference between launching this month and launching next quarter."

> **On Ownership**
>
> "You own 100% of everything. No licensing restrictions, no ongoing fees, no vendor lock-in. It's yours forever."

> **On Affordability**
>
> "A traditional agency charges $3,000-$10,000 for what OPTILINE delivers at $799-$1,799. That's professional-grade work at a fraction of the cost."

Q: How do I get paid?
A: Once a client completes payment and submits the onboarding form via your unique link, the commission is credited to your account. Payouts happen bi-weekly to your PayPal or crypto wallet.

Q: What if a client asks for a refund?
A: If a refund is issued, the commission is clawed back from your earnings. This is detailed in your PSP Agreement Article 12.

Q: Can I modify OPTILINE's marketing materials?
A: You can use provided materials as-is. Any modifications need approval from the Agency.

Q: What if I have a client who wants a custom deal?
A: All pricing and packages are fixed. Don't negotiate on price. If a client has special needs, connect them with the Agency directly.
